

Bella

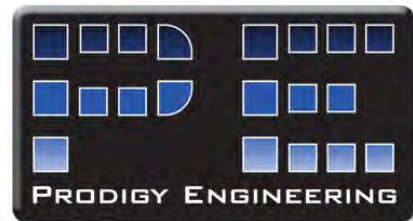

(bel'la [pronounced: bell-ah] - adjective)

Etymology: Latin; Definition: Beautiful.

Beauty. Art. Engineering.

Features:

- First-ever remote controllable 500-series mic preamp
- Original amplifier design (**NOT** another vintage clone!)
- Digitally controlled fully analog signal path
- Input/Output transformer coupled for the best possible CMRR in even the most demanding situations
- Gain from 18 to 60dB in 1dB steps accomplished with low-noise precision reed relays and 0.1% 25ppm temp co. mil-spec resistors for the purest gain structure and the most accurate recall and repeatability
- Switchable: High-Pass Filter (f-3@78Hz) Phantom (+48V), Polarity (0 or 180 degrees), Pad (-22dB), and Mute
- Seamlessly integrates with industry standard DAWs like Digidesign® Pro Tools HD® and ICON® control surfaces
- Software remote control application (OSX only)
- Cross-channel selection and grouping
- Fast, precision 3-LED headroom metering
- Innovative stainless steel industrial design
- MSRP = \$975
